- Our Ski and Snowboard Instructors are volunteers! They enable us to offer affordable lessons. This means more people are able to make the most out of their first experience on the snow.
 - We ask instructors to work the equivalent of one shift per week plus an extra shift over the Holiday Period. Ski and Snowboard Instructors earn lift passes for themselves and their family by volunteering their time.
 - Never taught before? We’ve got you covered! Christie Mountain offers clinics for new instructors and will teach you how to give a lesson. We also have a mentoring program which ensures that our new instructors are comfortable before giving lessons on their own.
 - Our Kinderschool Program gives Ski Lessons to children ages 3 to 7. It is staffed by an energetic mix of adult and teenage volunteers who work together to engage children while teaching the basics of skiing. Junior Ski Instructors (ages 10 to 15) work under the supervision of adult instructors and earn lift tickets for themselves.
 - Please feel free to contact me if you have questions or want more information about becoming an instructor. Applications can be sent using the contact information below.
